# INDEPENDENT AUDITORS' REPORT

To the Members of World Federation of Hemophilia - Fédération Mondiale de l'Hémophilie

## **Opinion**

We have audited the financial statements of World Federation of Hemophilia - Fédération Mondiale de l'Hémophilie (the "Entity"), which comprise:

- the statement of financial position as at December 31, 2019
- the statement of revenues and expenses for the year then ended
- the statement of changes in net assets for the year then ended
- the statement of cash flows for the year then ended
- and notes to the financial statements, including a summary of significant accounting policies

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements, present fairly, in all material respects, the financial position of the Entity as at December 31, 2019, and its results of operations and its cash flows for the year then ended in accordance with Canadian Accounting standards for not-for-profit organizations.

## **Basis for Opinion**

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "Auditors' Responsibilities for the Audit of the Financial Statements" section of our auditors' report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Page 2

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

# Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

#### We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion.
  - The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Entity to cease to continue as a going concern.

## Page 3

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to Financial Statements (Expressed in Canadian dollars, except as otherwise stated)

Year ended December 31, 2019

World Federation of Hemophilia - Fédération Mondiale de l'Hémophilie (the "Federation") was incorporated under Part II of the *Canada Corporations Act*. The Federation became a registered charity under the *Income Tax Act* (Canada) in 2005. On July 3, 2014, the Federation obtained its articles of continuance under Section 211 of the *Canada Not-for-Profit Corporations Act*.

The Federation is composed of representatives from hemophilia organizations in 140 countries. The mission of the Federation is to improve and sustain care for people with inherited bleeding disorders around the world. As part of its activities, the Federation receives product donations in the form of medicine from product manufacturers, treatment centres and homecare companies, and distributes those products to national member organizations ("NMOs") and recognized hemophilia treatment centres ("HTCs") around the world.

The Federation is not required to pay income taxes on the excess of revenues over expenses as it is a registered not-for-profit organization.

### 1. Significant accounting policies:

These financial statements have been prepared by management in accordance with Canadian accounting standards for not-for-profit organizations in Part III of the *CPA Canada Handbook*.

### (a) Revenue recognition:

The Federation follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or as receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Donated products are recognized as revenue when received from donors and shipped to beneficiaries and are recorded at their fair market value if those amounts can be reasonably estimated. Distributions of product donations are recognized as expenses when shipped on behalf of the Federation to the beneficiaries, or sent directly by donating companies.

A Hemophilia World Congress (the "Congress") is held every two years. This major event is planned in advance such that significant expenses are incurred in the years preceding the Congress year. Revenues received prior to the Congress year follow the deferral method of accounting for contributions. Expenses occurring prior to the Congress year are recognized in the statement of revenues and expenses when they occur, except for the refundable deposits which are deferred until the year during which the Congress is held, and are presented as prepaid Congress expenses in the statement of financial position.

Contributions from NMOs are recognized when received or receivable. An allowance for possible uncollectible amounts is also provided for accordingly.

Notes to Financial Statements (continued) (Expressed in Canadian dollars, except as otherwise stated)

Year ended December 31, 2019

### 1. Significant accounting policies (continued):

### (b) Foreign exchange translation:

The financial statements are expressed in Canadian dollars. Assets and liabilities, except non-monetary assets and liabilities in foreign currencies, are translated into Canadian dollars at the rate of exchange in effect at year-end. Non-monetary assets and liabilities are translated into Canadian dollars at historical rate of exchange in effect at the transaction date. Revenues and expenses in foreign currencies are translated into Canadian dollars at the rates of exchange in effect at the transaction dates. Gains and losses on translation of foreign currencies are included in the statement of revenues and expenses.

### (c) Cash and cash equivalents:

Cash and cash equivalents include cash on hand, bank balances less outstanding cheques and investments with a maturity period of three months or less when purchased.

#### (d) Capital assets:

Purchased capital assets are recorded at cost. Assets acquired under capital leases are amortized over the estimated life of the assets or over the lease term, as appropriate. Repairs and maintenance costs are charged to expense. Betterments which extend the estimated life of an asset are capitalized. When a capital asset no longer contributes to the Federation's ability to provide services, its carrying amount is written down to its residual value.

Capital assets are amortized on a straight-line basis using the following annual rates and period:

	Rate/period
Office equipment Computer hardware Computer software Leasehold improvements	20% 33 ⅓% 100% Term lease

Notes to Financial Statements (continued)
(Expressed in Canadian dollars, except as otherwise stated)

Year ended December 31, 2019

### 1. Significant accounting policies (continued):

(e) Deferred contributions:

Deferred contributions represent unspent resources for designated activities.

(f) Deferred lease inducement:

The incentive benefits for the Federation's lease are recognized on a straight-line basis over the term of the lease. The difference between the recorded expenses and the amounts payable under the term of the lease is presented in the liabilities under deferred lease inducement.

(g) International Hemophilia Training Centres ("IHTC") - Fellowships:

Fellowships are expensed in the year of approval by the IHTC Committee.

(h) Financial instruments:

Financial instruments are recorded at fair value on initial recognition. Equity instruments that are quoted in an active market are subsequently measured at fair value. All other financial instruments are subsequently recorded at cost or amortized cost, unless management has elected to carry the instruments at fair value. The Federation has elected to carry its investments in mutual funds, bonds and guaranteed investment certificates at fair value.

Transaction costs incurred on the acquisition of financial instruments measured subsequently at fair value are expensed as incurred. All other financial instruments are adjusted by transaction costs incurred on acquisition and financing costs, which are amortized using the straight-line method.

Financial assets are assessed for impairment on an annual basis at the end of the fiscal year if there are indicators of impairment. If there is an indicator of impairment, the Federation determines if there is a significant adverse change in the expected amount or timing of future cash flows from the financial asset. If there is a significant adverse change in the expected cash flows, the carrying value of the financial asset is reduced to the highest of the present value of the expected cash flows, the amount that could be realized from selling the financial asset or the amount the Federation expects to realize by exercising its right to any collateral. If events and circumstances reverse in a future period, an impairment loss will be reversed to the extent of the improvement, not exceeding the initial carrying value.

Notes to Financial Statements (continued) (Expressed in Canadian dollars, except as otherwise stated)

Year ended December 31, 2019

### 1. Significant accounting policies (continued):

#### (i) Contributed materials and services:

Contributed materials, including product donations, are recognized in the financial statements when a fair value can be reasonably estimated and when the materials and services are used in the normal course of operations and would otherwise have been purchased. The fair value is established at the date of receipt.

Contributions of volunteers are not recognized in the financial statements because of the difficulty of determining the fair value of the contributed services.

#### (i) Allocation of expenses:

The mission of the Federation is to improve and sustain care for people with inherited bleeding disorders around the world. As part of its activities, the Federation is engaged in various programs. The costs of each program include the costs of personnel, premises and other expenses that are directly related to providing the program, as well as general support expenses that are common to the administration of the organization.

Costs of personnel and general support expenses are being allocated to the programs on the basis of employees' time spent on the particular program, and applied on that basis consistently each year.

### (k) Presentation of the controlled organization:

As the sole voting member of the World Federation of Hemophilia USA ("WFH USA"), the Federation controls the governance of WFH USA. The Federation has elected not to consolidate WFH USA's financial statements.

#### (I) Related party transactions:

Monetary related party transactions and non-monetary related party transactions that have commercial substance are measured at the exchange amount when they are in the normal course of operations, except when the transaction is an exchange of a property held for sale in the normal course of operations. When the transaction is not in the normal course of operations, it is measured at the exchange amount when there is a substantive change in the ownership of the item transferred and there is independent evidence of the exchange amount.

All other related party transactions are measured at the carrying amount.

Notes to Financial Statements (continued) (Expressed in Canadian dollars, except as otherwise stated)

Year ended December 31, 2019

## 1. Significant accounting policies (continued):

## (m) Management estimates:

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

#### 2. Investments:

Year ended December 31, 2019

#### 6. Net assets:

The Federation manages its funds with the objective of:

- safeguarding its ability to continue to support various program expenses;
- funding current and future operations; and
- ensuring that it is able to meet its financial obligations as they become due.

The internally restricted net assets are considered as a reserve for future operations. During the year, the Board of Directors passed a motion to increase the reserve from \$2,500,000 to \$5,000,000. This amount cannot be reduced below \$5,000,000 without the Board of Directors' approval.

#### 7. Product donations:

The Humanitarian Aid Program of the Federation provides donations of treatment products to people with bleeding disorders around the world. Donations obtained from US-based companies are distributed by WFH USA and are recorded in the financial statements of WFH USA (Note 10). Other donations that are not from US-based companies are also recorded in the financial statements of WFH USA unless a Canadian charitable receipt would be requested or there are legal reasons not to channel these donations through WFH USA.

Product donations are priced using the current year's *Red Book*, a reference document used by pharmacists to help them, among other things, determine the pricing of most common drugs. For products not listed in the *Red Book*, the Federation establishes prices based on products with similar characteristics listed in the *Red Book*.

### 10. Related party transactions:

The Federation improves and sustains care for people with inherited bleeding disorders around the world. WFH USA advances the global mission of the Federation within the United States; developing resources to support this mission and building U.S. awareness for the global vision of Treatment for All.

WFH USA was incorporated as a non-for-profit corporation in the State of New York on April 29, 1996. The sole voting member of WFH USA is the Federation, which is responsible for the election of directors and officers of WFH USA. WFH USA qualifies as a tax-exempt organization under Section 501(c)(3) of the US Internal Revenue Code.

The accounts of WFH USA expressed in US dollars have not been consolidated in the financial statements.

### (a) Service agreement:

Effective September 9, 2018, WFH USA and the Federation signed a Services Agreement whereby the Federation performs various services for WFH USA. As full consideration for the Federation's performance of the services, WFH USA reimburses the Federation for the costs, without any markup, incurred and paid by the Federation in providing the services to WFH USA.

In 2019, the total reimbursements relating to employee salaries amounted to \$242,912 (2018 - \$217,409), presented as revenues in the statement of revenues and expenses. These transactions are measured at the exchange amount, which is the amount of consideration agreed upon by the parties.

#### (b) Collaboration agreement:

Effective September 9, 2018, WFH USA and the Federation signed a Collaboration Agreement which defines joint and coordinated activities (the "Joint Programs") to support their common charitable goal. The Joint Programs currently include the WFH Humanitarian Aid Program, the WFH Research Program and the WFH Training and Education Program.

As per the Collaboration Agreement, donors may designate contributions to WFH USA solely to be used to financially support the WFH Joint Programs. These donations, less reasonable costs of administration and management incurred by WFH USA, are periodically granted by WFH USA to the Federation as needed to carry out the Federation's responsibilities with respect to the Joint Programs.

In 2019, the total amount of contributions for the Joint Programs received by WFH USA and granted to the Federation amounted to \$2,932,351 (\$1,904,062 in 2018).

#### 11. Commitments:

(a) The minimal annual rental payments under the terms of the operating lease for premises ending December 31, 2028 are as follows:

2020 2021 2022 2023	\$ 114,631 114,631 135,872 135,872
2023 2024 2025 and thereafter	135,872 135,872 607,212

(b) The Federation is committed to make the following payments under the terms of the license agreement concerning its World Bleeding Disorders Registry, a web-based data entry system that provides a platform for a network of hemophilia treatment centres to collect uniform and standardized data on people with hemophilia.

2020 2021 2022	\$	59,040 59,040 54,120
----------------------	----	----------------------------

(c) The Federation is committed to pay \$450,138 for hotel accommodations and other expenses related to the 2021 Regional Congress in Buenos Aires. The contracts could result in penalties during the period preceding the events.

#### 12. Financial risks:

(a) Credit risk:

Credit risk refers to the risk that a counterparty may default on its contractual obligations resulting in a financial loss. The Federation is exposed to credit risk with respect to the contributions and other receivables. The Federation assesses, on a continuous basis, these receivables and provides for any amounts that are not collectible in the allowance for doubtful accounts.

Notes to Financial Statements (continued)
(Expressed in Canadian dollars, except as otherwise stated)

Year ended December 31, 2019

### 12. Financial risks (continued):

#### (b) Interest rate risk:

The Federation is exposed to interest rate risk on its fixed interest rate financial instruments. Further details about the fixed rate investments are included in Note 2.

#### (c) Currency risk:

The Federation is exposed to currency risk as a result of exchange rate fluctuations and the volatility of these rates.

A substantial portion of the Federation's revenues is provided in US dollars. The Federation did not enter, during the year, into foreign exchange contracts to mitigate this risk. There has been no change to the risk exposure from 2018.

### (d) Liquidity risk:

Liquidity risk is the risk that the Federation will be unable to fulfill its obligations on a timely basis or at a reasonable cost. The Federation manages its liquidity risk by monitoring its operating requirements. The Federation prepares budget and cash forecasts to ensure it has sufficient funds to fulfill its obligations. There has been no change to the risk exposures from 2018.

### 13. Subsequent event:

Subsequent to December 31, 2019, the COVID-19 outbreak was declared a pandemic by the World Health Organization. This has resulted in governments worldwide, including the Canadian and provincial governments, enacting emergency measures to combat the spread of the virus. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions; however, the success of these interventions is not currently determinable. The current challenging economic climate may lead to adverse changes in cash flows, working capital levels and investment balances, which may also have a direct impact on the Federation's operating results and financial position in the future. The situation is dynamic, and the ultimate duration and magnitude of the impact on the economy and the financial effect on the Federation are not known at this time.
