## Prevention of bleeds

AS THE  
GLOBAL  
STANDARD  
OF CARE

**WORLD HEMOPHILIA DAY APRIL 17, 2023**

The theme for this year's World Hemophilia Day is "Access for all: Prevention of bleeds as the global standard of care". Building on last year's theme, the call to action for the community in 2023 is to come together and advocate with local policy makers and governments for improved access to treatment and care with an emphasis on better control and prevention of bleeds for all people with bleeding disorders (PWBDs). This means the implementation of home-based treatment as well as prophylactic treatment to help those individuals have a better quality of life.

---

“There is nothing more moving for someone in our community to hear about than a child with a bleeding disorder playing with friends, going to school, and simply enjoying a better quality of life because they have access to proper treatment. Controlling and preventing bleeds really is critical to a better quality of life.”

— Cesar Garrido, WFH President

## HOW TO GET INVOLVED

There are many ways you can help increase awareness of the need for the control and prevention of bleeds for PWBDs in your community—and around the world. Whether you are a member of a national member organization (NMO), a healthcare professional, a PWBD, a caregiver or a member or supporter of the community, here are just a few things you can do to get started:

**CONTACT** your NMO to find out how you and other NMO members can work together on World Hemophilia Day

**PARTICIPATE** in the World Hemophilia Day Light it Up Red! campaign. Last year, thousands of people worldwide showed their support by lighting up nearly 100+ landmarks in cities across the world.

**ADVOCATE** locally using WFH World Hemophilia Day materials—including our letter template—and educate elected officials and health ministers

**SUPPORT** our global advocacy efforts and be a part of what we are building today for future generations by donating [here](#)

**SHARE** your story about how your quality of life—or the quality of life of someone you know—has changed thanks to receiving home-based treatment or prophylactic treatment on [wfh.org/whd](http://wfh.org/whd)

**GET SOCIAL** by posting about inherited bleeding disorders on Facebook, Twitter and LinkedIn using the [#WorldHemophiliaDay](#), [#WHD2023](#), and [#LightItUpRed](#) hashtags

**DOWNLOAD** resources to help build your World Hemophilia Day Campaign and learn more about the significance of the event

The WFH would like to thank our 2023 World Hemophilia Day sponsors for their continued support:
