**SUBJECT: Request for Support for [NMO] Participation in the WFH 2024 World Congress.**

Dear (NAME):

The World Federation of Hemophilia (WFH) and la Federación Española de Hemofilia (Fedhemo) will organize the WFH 2024 World Congress in Madrid, Spain, from April 21 to 24, 2024. The WFH 2024 World Congress will be the most comprehensive international event on bleeding disorders in 2024. In Madrid, the WFH 2024 World Congress will bring together all stakeholders of the international bleeding disorders community, including doctors, researchers, healthcare professionals, patient leaders, individuals with bleeding disorders, and hemophilia organizations who will have the opportunity to learn and interact with experts in bleeding disorders from around the world.

The Congress program will cover the latest developments and innovations in our field, from health issues to future challenges in the management and treatment of hemophilia, von Willebrand disease, rare factor deficiencies, and inherited platelet disorders. The idea of gathering the brightest and most qualified representatives in our field in one place is crucial to fostering new ideas and approaches.

Congress 2024 will focus on a wide range of topics, including (among others):

<ul style="list-style-type: none"><li>• Gene therapy</li><li>• Shared decision-making</li><li>• New treatment - 'medical' perspective</li><li>• Mild hemophilia- one third of us</li><li>• Women with bleeding disorders. Guidelines for a (true) comprehensive approach</li><li>• coreVWD: What does it mean for you?</li><li>• Use of technologies for patients with bleeding disorders</li><li>• Pediatric (0-18)</li><li>• How do you measure bleeding today? Factor levels vs. phenotype</li></ul>	<ul style="list-style-type: none"><li>• Comorbidities &amp; aging</li><li>• How much prophylaxis is enough?</li><li>• Women and girls with bleeding disorders</li><li>• Diagnosis and treatment challenges in lower resource countries</li><li>• Registries</li><li>• Acquired BD</li><li>• Unresolved hemostasis issues</li></ul>

Click [here](#) to download the full program.

In addition to learning, I consider the following as benefits of participating in the WFH 2024 World Congress:

1. Access to a global community of over 3,000 delegates.
2. Possibility to build a professional network that benefits the bleeding disorders community in [COUNTRY]...
3. Cutting-edge sessions that will expand my knowledge of the latest developments in the treatment and care of bleeding disorders, as well as the best ways to make a compelling case to medical professionals and authorities to promote the use of prophylaxis and comprehensive care.

4. Information on key trends and significant issues facing the global community of hereditary bleeding disorders.

Considering the relevance of this Congress to the work carried out by [NMO/Institution's name], we request your support to cover the expenses associated with the participation of [delegate's name]. Expenses would include registration, travel, accommodation, and any meals outside the event. The total cost is [total amount]. The breakdown of estimated costs is [include a detailed budget estimate]:

Registration: [include an estimate]

Airfare: [include an estimate]

Hotel: [include an estimate]

TOTAL: [include total]

I thank you in advance for your time and make myself available to answer any questions you may have. I am confident that my participation in the WFH 2024 World Congress will be beneficial for both [my organization/Institution] and the bleeding disorders community, as well as for my professional growth.

Sincerely
